

Hi Micheline,

In 2004 our daughter was diagnosed with leukemia. During that very difficult time the only thing we could think of was getting our daughter well. Living in Northern Ontario this meant many trips to Toronto so travel, food, accommodation costs added up quickly.

The interlink nurse in Sudbury contacted us as soon as we were back home after a month in Toronto and provided information on the NOFCC.

The NOFCC is an organization that we had never heard of, came to us and offered us food vouchers, telephone long distance cards and parking vouchers.

Our daughter had to be in Toronto every 3 weeks so these offers by NOFCC was very much appreciated.

We are so grateful that the NOFCC was around for us at a very difficult time.

Ken and Diane Sheldon
